## Disposable Gloves Nitrile

### » GOLDEN HANDS POWDER-FREE NITRILE

- Made with premium grade Synthetic Nitrile, a latex-free raw material.
- Ideal for people with latex allergies.
- Tested for superior quality and use of selected raw materials.
- Excellent chemical resistance.
- Conforms to ASTM D6319-10 Standard.
- Ambidextrous design – can be used on either hand.
- These gloves are non-Sterile, include a Beaded Cuff design, and has a textured, easy-grip surface.
- Available in sizes: S, M, L, XL.

#### » GOLDEN HANDS ECONO POWDER-FREE NITRILE

- Made from Synthetic Nitrile, a latex-free raw material which is ideal for people with latex allergies.
- Tested for superior quality and use of selected raw materials.
- Excellent chemical resistance.
- Conforms to ASTM D6319-10 Standard.
- Ambidextrous design – can be used on either hand.
- These gloves are non-Sterile, include a Beaded Cuff design, and has a textured, easy-grip surface.
- Available in sizes: S, M, L, XL.

#### » A1 POWDER-FREE NITRILE

- Latex-free disposable protective Nitrile Exam gloves are made with premium grade Synthetic Nitrile, a latex-free raw material.
- Contains no latex proteins or accelerators so it is ideal for people with latex allergies.
- Tested for superior quality and use of selected raw materials.
- Excellent chemical resistance.
- Conforms to ASTM D6319, EN455 Part 1 & 2 – AQL 1.5.
- Powder-free, Ambidextrous, Non-Sterile, Beaded Cuff, Textured Surface.
- Available in sizes: S, M, L, XL.

## Disposable Gloves Latex

### » GOLDEN HANDS POWDERED LATEX

- Disposable protective Powdered Smooth Latex Exam Gloves made with premium grade natural rubber latex.
- Powdered using US grade corn starch to provide easy donning and removal.
- Superior tested quality and uses only selected raw materials for highest value.
- Conforms to ASTM D3578-10 Standard.
- Non-Sterile, ambidextrous, and includes a Beaded Cuff design, and has a smooth strong surface.
- Available in sizes: S, M, L, XL.

## » GOLDEN HANDS POWDER-FREE LATEX

- Disposable protective Latex Exam Gloves made with premium grade natural rubber latex.
- Powder-Free Textured Latex Exam Gloves will not soil your clothes or work environment.
- Low in water soluble proteins and chemical allergens and Chlorinated and/or Polymer Coated.
- Conforms to ASTM D3578-10 Standard and tested quality and use of selected raw materials.
- Non-Sterile, ambidextrous, includes a Beaded Cuff design, and has a textured, easy-grip surface.
- Available in sizes: S, M, L, XL.

## » A1 POWDERED LATEX

- Disposable protective Powdered latex exam gloves made with premium grade natural rubber latex.
- Powdered latex exam gloves use US grade corn starch to provide easy donning and removal.
- Tested quality and use of selected raw materials.
- Conforms to ASTM D3578, EN455 Part 1 & 2, AQL 1.5.
- Ambidextrous, Non-Sterile, Beaded Cuff, Smooth Surface.
- Available in sizes: S, M, L, XL.

## » A1 POWDER-FREE LATEX

- Disposable protective Powder-free latex exam gloves made with premium grade natural rubber latex.
- Powder-free latex exam gloves will not soil your clothes or work environment.
- Low in water soluble proteins and chemical allergens and Chlorinated and/or Polymer Coated.
- Conforms to ASTM D3578, EN455 Part 1 & 2, AQL 1.5. with tested quality and use of selected raw materials.
- Ambidextrous, Non-Sterile, Beaded Cuff, Textured Surface.
- Available in sizes: S, M, L, XL.

## Disposable Gloves Latex & Other

### » GOLDEN HANDS STERILE POWDERED LATEX

- Surgical sterile powdered latex gloves are individually packaged as pairs in sterile packages and sterilized by Gamma Radiation.
- The gloves will remain sterile until the package is opened or damaged.
- Unique latex formulation improves flexibility.
- Designed to minimize hand fatigue, ensure maximum comfort, and help retain touch sensitivity during even the most extended procedures.
- These latex gloves are disposable, single use items only and should be discarded after use.
- Available in sizes: 6.0, 6.5, 7.0, 7.5, 8.0, 8.5.

### » GOLDEN HANDS STERILE POWDER-FREE LATEX

- Surgical Sterile Powder-Free Latex Gloves are individually packaged as pairs in sterile packages and sterilized by Gamma Radiation.
- The gloves will remain sterile until the package is opened or damaged.
- Unique latex formulation improves flexibility.
- Designed to minimize hand fatigue, ensure maximum comfort, and help retain touch sensitivity during even the most extended procedures.
- These latex gloves are disposable, single use items only and should be discarded after use.
- Available in sizes: 6.0, 6.5, 7.0, 7.5, 8.5.

### » GOLDEN HANDS CLEAR VINYL POWDER-FREE

- Latex-free and powder-free disposable protective Vinyl gloves are one of the best economical options for disposable gloves.
- Ideal for people with latex allergies as these Vinyl Gloves contain no latex proteins or accelerators.
- The high quality vinyl formula will ensure excellent wearer comfort and durability.
- Produced according to medical directives (EN 455) and made from PolyVinyl Chloride.
- Ambidextrous design for use on either hand with a loose fit and anti-static properties.
- Good for short-term, low-risk tasks and for use with non-hazardous materials.
- Available in sizes: S, M, L, XL.

### » GOLDEN HANDS BLUE VINYL POWDER-FREE

- Latex-free and powder-free disposable protective Vinyl gloves are one of the best economical options for disposable gloves.
- Ideal for people with latex allergies as these Vinyl Gloves contain no latex proteins or accelerators.
- The high quality vinyl formula will ensure excellent wearer comfort and durability.
- Produced according to medical directives (EN 455) and made from PolyVinyl Chloride.
- Ambidextrous design for use on either hand with a loose fit and anti-static properties.
- Good for short-term, low-risk tasks and for use with non-hazardous materials.
- Available in sizes: S, M, L, XL.

### » GREEN NITRILE HOUSEHOLD GLOVES

- Tough, resilient, and flexible, with embossed palms for easy wet or dry grip.
- Made from high-quality Synthetic Nitrile rubber, a latex-free material, with a specialized registered formula for better protection of your hands.
- Gloves are reusable; just rinse in clean water after each use, and air or tumble dry.
- Ergonomically designed to fit hands anatomically and Flock lined for comfort.
- Impermeable to chemicals and microorganisms.
- Available in sizes: S, M, L, XL.

### » YELLOW HOUSEHOLD GLOVES

- Made from high-quality natural latex with a specialized registered formula for better protection of your hands.
- Tough, resilient, and flexible, with embossed palms for easy wet or dry grip.
- The surface is specially treated using CI2, but has no detectable chemical residue.
- Gloves are reusable; just rinse in clean water after each use, and air or tumble dry.
- Ergonomically designed to fit hands anatomically and Flock lined for comfort.
- Impermeable to chemicals and microorganisms.
- Available in sizes: S, M, L, XL.

## Medical Supplies

### Bandages

#### » ELASTIC ADHESIVE BANDAGE

- *Lightweight, strong, and elastic bandage made from 100% cotton with porous adhesive side.*
- *Soft and comfortable, with high quality stretch properties, and designed to be breathable.*
- *Moulds easily to the contours of the body, making it far less bulky and lighter weight than a brace.*
- *Provides strong support and compression to the applied area.*
- *Remains intact when worn for a long period of time, and tolerates moisture, even in humid environments.*
- *The yellow center line ensures easy application and accurate overlap.*
- *For use by athletes to prevent and stabilize sports injuries and protect wounds.*
- *Available in Sizes: 12.5mm X 5M, 25mm X 5m, 50mm X 5m, 75mm X 5m, 100mm X 5m.*

## » CONFORMING BANDAGE

- Contour conforming.
- Designed to mould itself to the shape of the area where it is applied.
- High quality stretch properties.
- Elastic knit material.
- Designed to be self-adhesive.
- Soft and comfortable.
- Designed to be breathable.
- Resistant to infection and odour.
- Available in sizes: 50mm X 4.5m, 75mm X 4.5m, 100mm X 4.5m, 150mm X 4.5m.

## » CREPE BANDAGE

- Lightweight and strong.
- Reusable 100% cotton crepe bandage.
- Includes 2 metal clips for securing bandage.
- Light support / compression for sprains and strains.
- Individually wrapped with clasp.
- High quality stretch properties.
- Elastic knit material.
- Soft and comfortable.
- Designed to be breathable.
- Available in sizes: 50mm X 4.5m, 75mm X 4.5m, 100mm X 4.5m, 150mm X 4.5m.

## » POP BANDAGE

- Leno Gauze Base Fabric with Smooth POP Powder, a special hi-tech formulation Gypsum.
- Adapts easily to the contours of the body, immobilizing and thus aiding the healing process.
- Gives a strong, rapid dry setting and creates a sturdy long-life cast with a higher cast strength for the same weight of bandage.
- Short immersion time and high compressive strength with low powder loss.
- Excellent water absorbency capacity.
- Waterproof packaging.
- Available in Sizes: 50mm X 2.7m, 75mm X 2.7m, 100mm X 2.7m, 150mm X 2.7m, 200mm X 2.7m.

## » TRIANGULAR BANDAGES

- Lightweight design to add comfort.
- Sufficient strength to withstand the pressure exerted by a resting arm.
- Can be used to hold a splint tight as an additional support.
- When folded can be used as padding for wounds.
- Breathable, allowing air circulation.
- Available in sizes: 91cm X 91cm X 129cm (Calico) and 90cm X 90cm X 172cm (Non-Woven Disposable).

# Medical Supplies

## Dressings

### » FIRST AID DRESSINGS

- First Aid Dressings are used for wrapping or packing wounds.
- They provide cushioning, protection, and comfort.
- Designed to be absorbent, aerating, and low-linting.

**First Aid Dressings are available in the following configuration types:**

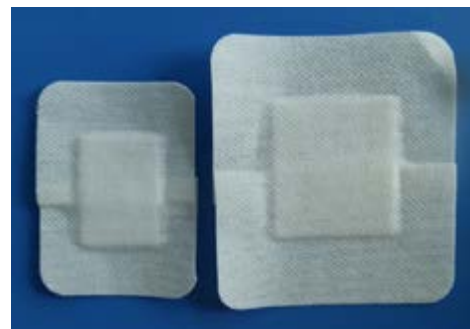

- First Aid Dressing 2: 50mm X 75mm X 1.2m
- First Aid Dressing 3: 75mm X 100mm X 2.2m
- First Aid Dressing 4: 150mm X 200mm X 4.5m
- First Aid Dressing 5: 150mm X 200mm X 2.5m
- First Aid Dressing 6: 200mm X 300mm X 4.5m

## » ISLAND DRESSINGS

Soft, non-woven, sterile, absorbent fabric pad coated with low-adherent hypoallergenic acrylic adhesive. High breathability reduces the risk of maceration. Available in sizes: 5cm X 7cm, 6cm X 10cm, 9cm X 35cm, 10cm X 12cm, 10cm X 15cm, 10cm X 20cm, 10cm X 25cm.

## » WOUND DRESSING STRIPS

Self-adhesive dressing strip, made from Cotton or Polyethylene. Used to dress cuts, grazes, abrasions and stitches. Can be cut to size to suit an injury. Absorbent with soft, breathable cover and low-allergy adhesive. Available in one Size: 6cm X 1m.

## » EYE PADS

Highly absorbent disposable pads made from 100% cotton skim bleached gauze. Pre-washed and packed in individual Sterile pouches. Stitched edges to minimize lint and loose threads. Available in size: 56mm X 71mm.

## » BURNSHIELD DRESSING

BURNSHIELD® products have been sterilized by Gamma Irradiation. Suitable for small to medium sized Burns and Scalds. Bacteria static, non-toxic and non-irritant. Foam based, fibreless dressing for optimal heat dissipation. Non-adherent and covered in stable water-soluble gel. Available in Sizes: 10 X 10 and 20 X 20.

## » BURNSHIELD HYDROGEL TUBE

BURNSHIELD® products have been sterilized by Gamma Irradiation. Suitable for Superficial / Partial Thickness Burns and Sunburn. Bacteria static, non-toxic and non-irritant. Stable water-soluble gel. Available in one Size: 10ml Tube.

## » BURNSHIELD HYDROGEL SACHET

BURNSHIELD® products have been sterilized by Gamma Irradiation. Suitable for Superficial / Partial Thickness Burns and Sunburn. Bacteria static, non-toxic and non-irritant. Stable water-soluble gel. Available in one Size: 3.5ml sachet.

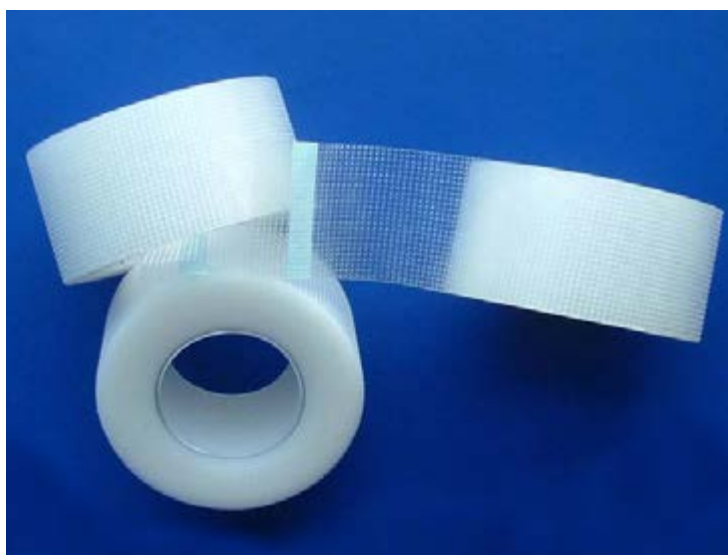

## Medical Supplies

### Tape & Plasters

#### » TRANSPORE PE TAPE

- *Transparent, perforated polyethylene film.*
- *Easy bi-directional tear.*
- *Allows the passage of water vapour from the skin.*
- *Provides excellent permeability to air and moisture.*
- *Strong hypoallergenic adhesion.*
- *Allows visualization of the skin.*
- *Ideal for securing tubing and dressings that need to be monitored.*
- *Available in Sizes: 12.5mm X 5M, 25mm X 5m, 50mm X 5m, 75mm X 5m.*

### » MICROPORE PAPER TAPE

- Non-woven white Micropore Paper Tape for dressing fixation.
- Made from 100% semi-synthetic viscose and easy to tear by hand.
- The low, hypoallergenic adhesive is ideal for fragile or dry skin.
- Micropores allow the skin to breathe and provides excellent permeability to air and moisture.
- Available in Sizes: 12.5mm X 5m, 25mm X 5m, 50mm X 5m, 75mm X 5m.

### » ZINC OXIDE TAPE

- Non-stretch cotton or rayon tape with a Zinc Oxide Adhesive.
- Tears easily by hand along its length and width and moulds smoothly to the contours of the body.
- Remains intact when worn for a long period of time, and tolerates moisture, even in humid environments.
- Available in Sizes: 12.5mm X 5M, 25mm X 5m, 50mm X 5m, 75mm X 5m, 100mm X 5m.

### » WATERPROOF FINGER PLASTERS

- Standard wound adhesive plaster made of thin, highly elastic PVC film.
- 100% Latex-free, ideal for those with latex allergies.
- Waterproof and impermeable to oil and fat.
- Highly absorbent, low adherent wound pad.
- Skin friendly, hypoallergenic adhesive.
- Sterile, provides a Viral barrier.
- Soft, comfortable and breathable.
- Available in one Size: 72mm X 19mm.

### » WATERPROOF X-RAY DETECTABLE FINGER PLASTERS

- Visually detectable Blue wound adhesive plaster with X-Ray detectable Aluminium strip under the wound pad.
- Waterproof and impermeable to oil and fat.
- Substrate made of thin, highly elastic polyethylene film with highly absorbent, low adherent wound pad.
- Skin friendly, hypoallergenic adhesive.
- Sterile, provides a Viral barrier.
- Soft, comfortable and breathable.
- Available in one Size: 72mm X 19mm.

## Medical Supplies

### Gauze, Swabs & Cotton Wool

#### » ABDOMINAL SWABS – STERILE

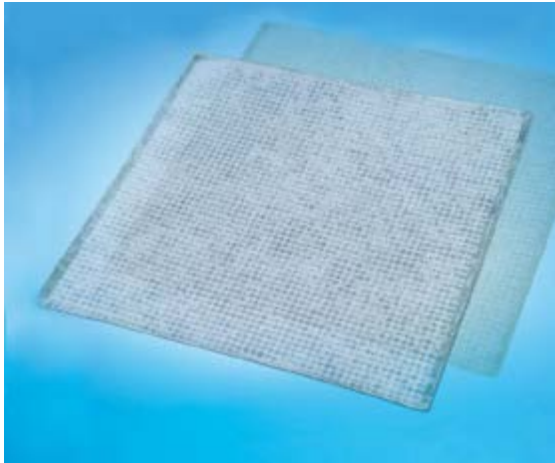

- Highly absorbent disposable LAP Sponges.
- Made from 100% cotton skim bleached gauze, pre-washed and packed in a Sterile tray pack.
- Ideal for cleaning wounds, absorbing blood and exudate and dividing the wound.
- Compliant with the highest international standards.
- With cotton belt and X-Ray line, fully X-Ray detectable.
- Folded and interlocked edges to minimize lint and loose threads.
- Available in one size only: 450mm X 370mm.
- Available as 4Ply and 6Ply.

## » ABDOMINAL SWABS – NON STERILE

- Highly absorbent disposable LAP Sponges.
- Made from 100% cotton skim bleached gauze, pre-washed, but Non-Sterile.
- With cotton belt and X-Ray line, X-Ray detectable.
- Folded and interlocked edges to minimize lint and loose threads.
- Available in one size only: 450mm X 370mm.
- Available as 4Ply and 6Ply.

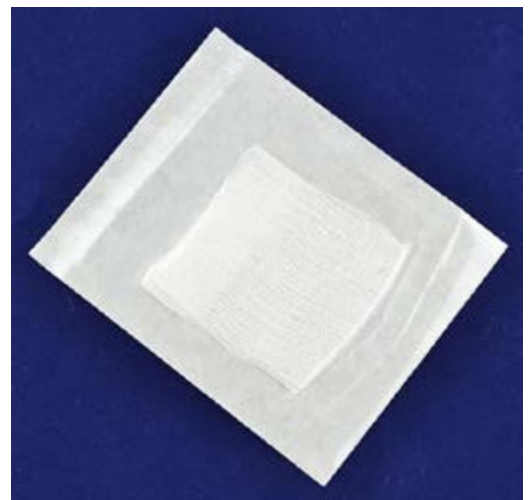

## » PARAFIN GAUZE

- Non-medicated, paraffin-impregnated disposable Sterile Gauze Pads.
- Open weave base fabric allows easy drainage into an absorbent secondary dressing.
- Paraffin Gauze is a non-shedding, non-absorbant dressing and its semi transparency makes for easy wound site observation.
- The gauze has interlocking threads which minimise fraying when the dressing is cut to shape.
- Available in one size only: 10mm X 10mm.

## » GAUZE SWABS – STERILE

- Highly absorbent disposable Gauze pads.
- Made from 100% cotton skim bleached gauze, pre-washed and packed in Sterile pouches.
- Ideal for cleaning wounds, absorbing blood.
- Compliant with the highest international standards.
- Folded edges to minimize lint and loose threads.
- Available in sizes: 50mm X 50mm, 75mm X 75mm, 100mm X 100mm.
- Available as 5 pads of 8Ply in a Sterile Pouch.

## » GAUZE SWABS - NON STERILE

- Highly absorbent disposable Gauze pads.
- Made from 100% cotton skim bleached gauze, pre-washed, but Non-Sterile.
- Ideal for cleaning wounds, absorbing blood.
- Compliant with the highest international standards.
- Folded edges to minimize lint and loose threads.
- Available in sizes: 50mm X 50mm, 75mm X 75mm, 100mm X 100mm.
- Available as 8Ply.

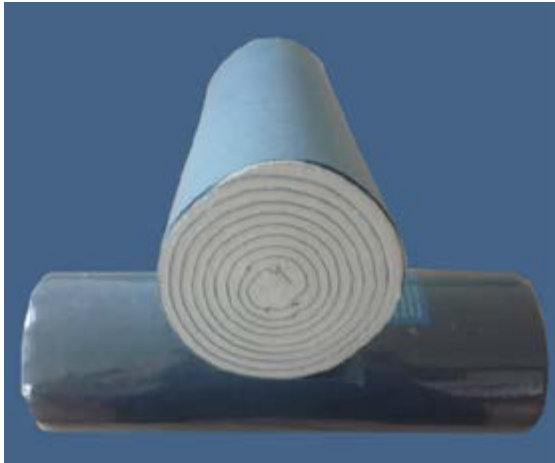

## Medical Supplies

### Gauze, Swabs & Cotton Wool

#### » COTTON WOOL ROLLS NON-INTERLEAVED

- Highly absorbent disposable 100% Cotton wool rolls.
- Made from raw cotton which has been combed to remove impurities and then bleached with a high-temperature, high-pressure, pure oxygen process.
- Compressed layers of cotton, tightly rolled.
- Ideal for cleaning wounds and absorbing blood and exudate.
- Available in sizes: 50gram, 100gram, 500 gram.

#### » COTTON WOOL ROLLS INTERLEAVED

- Highly absorbent disposable 100% Cotton wool rolls.
- Made from raw cotton which has been combed to remove impurities and then bleached with a high-temperature, high-pressure, pure oxygen process.
- Even layers of cotton interleaved with paper to ensure ease of use.
- Ideal for cleaning wounds and absorbing blood and exudate.
- Available in one size only: 500gram.

#### » COTTON WOOL BALLS

- Highly absorbent disposable 100% Cotton wool balls.
- Made from raw cotton which has been combed to remove impurities and then bleached with a high-temperature, high-pressure, pure oxygen process.
- Compressed layers of cotton, tightly rolled into 1gram balls.
- Ideal for cleaning wounds and absorbing blood and exudate.
- Available in one size only.

#### » EAR BUDS

- Standard double-tipped Cotton wool buds.
- Ideal for applying medicines to a targeted area or selectively removing substances from a targeted area.
- Can also be used as an applicator for various medicines and ointments.
- Available in one size only.

## Medical Supplies Consumables

### » CIRCUMCISION PACK - DRESSING TRAY

- Single-use, disposable sterile dressing pack.

Contains the following items:

- 1 X Protection Sheet
- 1 X Red Disposal Bag
- 5 X Gauze Swabs
- 8 X Cotton Wool Balls
- 1 X Plastic Forceps
- 1 Pair of Powder-Free Latex Gloves

- Available in one size only: 150mm X 150mm X 50mm.

## Medical Supplies Consumable

### » FINGER COTS

Latex finger protection device. Rolled and pre-powdered for easy application. Super thin for extra sensitivity. Available in sizes: S, M, L.

### » AUTOCLAVE TAPE

- Adhesive tape with diagonal markings containing heat-activated indicator ink.
- Available in sizes: 12.5mm X 50m, 19mm X 50m, 24.5mm X 50m.

### » FORCEPS – PLASTIC

Medium sized plastic disposable forceps. Non-locking and hinged. Pressure control, fluted legs, and small, tapered, serrated tips. Available in one size only: length 130mm.

### » FORCEPS – METAL

Small metal forceps. Non-locking and hinged. Fluted exterior legs and small, tapered, smooth tips. Available in one size only: length 80mm.

### » TONGUE DEPRESSORS

Wooden disposable tongue depressors. Ideal for the examination of the mouth and throat. Flat, thin design, smoothed and rounded at both ends. Available in one size only.

### » MEDICINE MEASURING SPOON

Clear plastic design, easy to clean. 2.5ml and 5ml dose size graduations for accurate measurement of liquids. Disposable or reusable. Available in one size only.

### » MEDICINE TUMBLER

60ml medicine cups with graduations (oz and ml). Clear plastic design, easy to clean. Disposable or reusable. Dishwasher and Microwave safe. Available in one size only.

### » TABLET COUNTING TRAY

Made from sturdy ABS Plastic, includes a handy angled spatula. Two funnels inhibits spillage and allows for the transfer of tablets to bottles or envelopes. Available in one size only: 190mm X 130mm X 35mm.

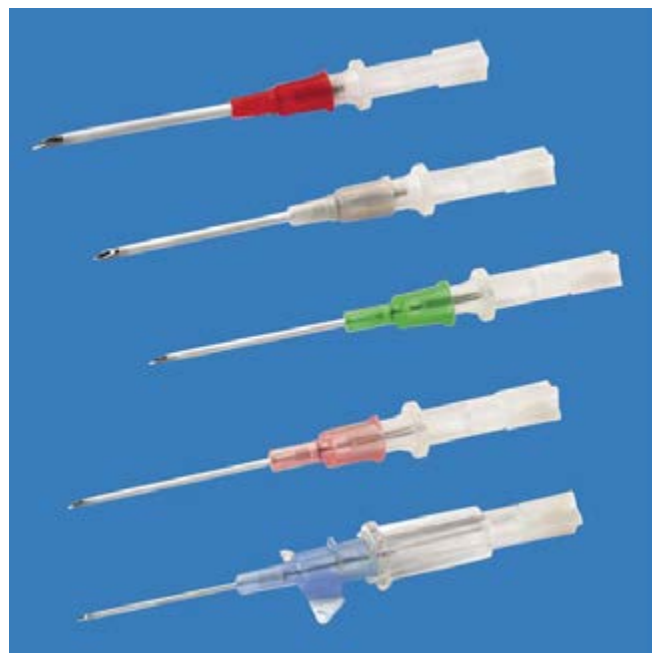

## Medical Supplies

### Needles & Syringes

#### JELCO IV CATHETER

- FEP polymer construction.
- Straight hub, Radiopaque.
- 'J'-point needle design allow clinicians to easily feel the vein entry.
- Ease of use starting arterial lines and gaining IV access.
- The thin wall catheter design provides higher flow rates than standard wall catheters, often allowing for use in a smaller gauge device.
- Available in sizes: 14G, 16G, 18G, 20G, 22G, 24G.

## Medical Supplies

### Needles & Syringes

#### » HYPODERMIC NEEDLES - 25MM

Sterile, single-use, disposable stainless steel needles with standard bevel. Non-toxic, non-pyrogenic, Latex-free, hypo-allergenic. Available in sizes: 18G, 20G, 21G, 23G, 24G, 25G, 26G.

#### » HYPODERMIC NEEDLES - 38MM

Sterile, single-use, disposable stainless steel needles with standard bevel. Non-toxic, non-pyrogenic, Latex-free, hypo-allergenic. Available in sizes: 18G, 20G, 21G, 23G, 24G, 25G, 26G.

#### » DENTAL NEEDLES - 25MM

Sterile, single-use, disposable stainless steel needles with Dental bevel. Non-toxic, non-pyrogenic. Latex-free, hypo-allergenic. Available in sizes: 27G, 30G.

#### » DENTAL NEEDLES - 38MM

Sterile, single-use, disposable stainless steel needles with Dental bevel. Non-toxic, non-pyrogenic. Latex-free, hypo-allergenic. Available in sizes: 27G.

#### » SPINAL NEEDLES – 90MM

Packaged Ethylene Oxide sterile, single-use, disposable stainless steel needles with Spinal bevel. Non-toxic, non-pyrogenic. Latex-free, hypo-allergenic. Available in sizes: 18G – 26G.

#### » INSULIN SYRINGES

Packaged Ethylene Oxide sterile, single-use, disposable stainless steel needles with shorter needle and finer gauge for greater comfort. Non-toxic, non-pyrogenic. Latex-free, hypo-allergenic. Available in sizes: 27G, 29G.

#### » LUER SLIP SYRINGES

Single-use, disposable plastic syringes, 3-Part, Luer slip design. Non-toxic, non-pyrogenic. Latex-free, hypo-allergenic. Graduated for easy measurement. Available in sizes: 1ml, 2ml, 3ml, 5ml, 10ml, 20ml, 50ml.

#### » LUER SLIP SYRINGES – CATHETER TIP

Single-use, disposable plastic syringes, 3-Part, Luer slip design with long tapered Catheter Tip. Non-toxic, non-pyrogenic. Latex-free, hypo-allergenic. Graduated for easy measurement. Available in sizes: 50ml.

### » CHROMIC CATGUT SUTURES

- Biological catgut material, fully absorbable, made from purified collagen.
- Treated with chromic acid salts to prolong stitch-holding time.
- Has a high knot-pull tensile strength and good knot security due to special excellent handling features.
- It is used for all surgical procedures including general closure, ophthalmic, orthopaedics, obstetrics/gynaecology and gastrointestinal surgery.
- Available in sizes: 1/0, 2/0, 3/0, 4/0, 5/0.

### » NYLON SUTURES

- Synthetic Nylon material, non-absorbable, made from Nylon 6 and 6.6.
- Extended holding time, must be removed after healing.
- Possesses excellent tensile strength and knot security properties and can be easily removed with no tissue adherence.
- These sutures are infection resistant.
- It is used in stressful internal environments where there is constant pressure and movement or adverse chemical conditions.
- Available in sizes: 1/0, 2/0, 3/0, 4/0, 5/0.

### » STITCH CUTTERS – LONG

- Disposable Carbon Steel blade Sterilized by 25KGY Gamma radiation.
- Designed with a rounded bull nose tip to prevent puncturing of skin.
- Ideal for the purpose of cutting modern suture materials.
- Allows for a more aseptic technique by operating further away from the actual wound which also permits better visibility.
- Requires no handle.
- These blades are individually packed in peel-open pouches.
- Available in one size only.

### » STITCH CUTTERS – SHORT

- Disposable Carbon Steel blade Sterilized by 25KGY Gamma radiation.
- Designed with a rounded bull nose tip to prevent puncturing of skin.
- Ideal for the purpose of cutting modern suture materials.
- Allows for a more aseptic technique by operating further away from the actual wound yet also allowing better visibility.
- Larger area for grip.
- Can be used with or without a handle.
- These blades are individually packed in peel-open pouches.
- Available in one size only.

## Medical Supplies Blades & Sharps

### » READY LANCE SAFETY LANCETS – ADULT

- ReadyLance™ Pressure Activated Safety Lancets have a state-of-the-art firing mechanism and tri-bevel needle which make it the most user-friendly and comfortable lancet on the market.
- They have a simple, one-step function, a non-reusable safety feature and are both FDA and CE Approved.
- Unique, new ergonomic style for safety lancets, easier and comfortable to grip.
- Smaller round top provides more control of pressure needed to activate.
- Completely protected cannula, provides more consistent quality.
- Tri beveled, sharpened point, less pain procuring blood sample.
- Patented internal dual spring mechanism: Provides smoother delivery of cannula.
- More stable delivery reduces pain and discomfort to patient.
- Gamma sterilized, with five years shelf life.
- Available in Sizes: 26G X 1.8mm, 23G X 2.2mm, 21G X 2.4mm.

**ReadyLance™**  
by medicore

### » READY LANCE SAFETY LANCETS – CHILD

ReadyLance™ Safety Lancets have a simple, one-step function, a non-reusable safety feature and are both FDA and CE Approved. Available in Sizes: 28G X 1.8mm and 30G X 1.6mm.

### » BLOOD LANCETS

Sterile, disposable, single-use lancets for easy puncturing to minimize trauma. Tapered stainless steel point for consistent depth penetration. Available in one size only.

### » MICRO BLOOD LANCETS

Sterile, disposable, single-use Micro lancets with fine gauge and tri-bevel tip for virtually painless sampling. Two piece construction ensures clean twist-off cap. Available in one size only.

### » SCALPEL BLADES WITH HOLDERS

Sterile disposable scalpel blade mounted on ABS plastic handle with fluted grip. Unique, pre-assembled design. The blades are safely protected by LDPE guard. Available in sizes: 11, 13, 22, 23.

### » SCALPEL BLADES – CARBON STEEL

Sterile disposable Carbon Steel scalpel blades with Convex cutting surface created with micrometer-accurate precision double-honing process for ultra-sharp cutting edges. Available in various sizes.

### » SCALPEL BLADES – STAINLESS STEEL

Sterile disposable Stainless Steel scalpel blades with Convex cutting surface created with micrometer-accurate precision double-honing process for ultra-sharp cutting edges. Available in various sizes.

### » SAFETY PINS

Includes a simple spring mechanism and a clasp. Used to fasten pieces of fabric or clothing together. Available in sizes: 25mm, 30mm and 35mm.

### » DISPOSABLE RAZORS

Twin blades, ridged handle and lubricant ribbon for smooth glide action. Classic design for medical use. Ideal for prepping skin areas. Available in one size only.

## Medical Supplies

### Admin Sets & Intravenous

#### » ADMIN SET WITH NEEDLES

- Disposable single-use IV tubing.
- Latex-free.
- Flow control device.
- Available in: 20 Drop, 60 Drop.

#### » ADMIN SET WITH Y-SITE

- Disposable single-use IV tubing.
- Latex-free.
- Flow control device.
- Available in: 20 Drop, 60 Drop.

#### » BLOOD ADMIN SET

- Sterile, non-toxic, non-pyrogenic.
- Disposable single-use blood transfusion set.
- Uses a blood filter to eliminate blood clots and cellular debris of storage from the infusing blood component.
- Available in: 20 Drop.

#### » BUTTERFLY SCALP VEIN SETS

- Ideal way of gaining short-term needle access with an integral tubing extension.
- Two bilateral flexible "wings" that are colour-coded for easy recognition of size.
- Pliant to ensure patient comfort.
- Reaches more body surface and tolerates more patient movement.
- Available in Gauge sizes: 19, 20, 21, 22, 23, 24.

#### » LINEN SAVERS

Used for bed protection and keeping patient's skin dry. Highly absorbent top pad and retains liquids effectively with waterproof backsheet. Disposable, single-use only. Available in one size only: 510mm X 650mm. Available as 4Ply and 6Ply.

#### » BEDPAN PLASTIC

Reusable, easy to clean with standard household cleaners, and odour resistant. Constructed of heavy duty moulded plastic that's built to last but lightweight at the same time. Designed with a smooth contour shape and a tapered front. Available in one size only.

#### » PREGNANCY TEST – MIDSTREAM

Fast, convenient, safe, and proven pregnancy test detects hCG levels of 20 mIU/ml or lower in urine. A positive result may be observed within 30 seconds as soon as 8-12 days after conception. Sensitivity 25mIU/ml. Available in one size only.

#### » ULTRASOUND GEL

Water soluble, non-greasy, non-irritant, and will not damage the ultrasound applicator or electrodes. Very efficient coupling medium for ultrasound transmissions. Spreads easily and evenly. Available in one size only: 250ml.

#### » UMBILICAL CORD CLAMPS

Manufactured from medical-grade materials and sterilized by EO gas. Non-toxic and single-use disposable. Latex-free and safe and easy to apply with dual gripping surface and smooth edges. Available in one size only.

#### » URINAL – PLASTIC

Male urinal with lid. Reusable, easy to clean. Made from lightweight, durable plastic. Wide base for improved stability. Handle for convenient storage on bed rail. Available in one size only.

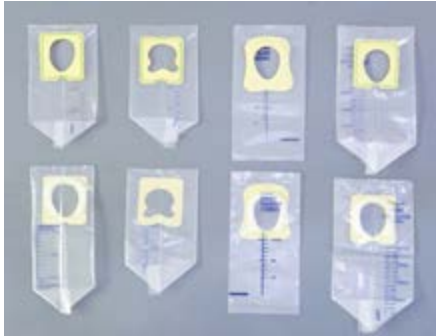

## Medical Supplies

### OBGYN & Urinary

#### » URINE BAG

Latex-free medical grade PVC, PE, PP, and ABS. Sterile packaged, single use disposable. Consists of 2 litre bag, connecting tube, taper connector, bottom outlet and handle. One handed outlet tap. Anti-reflux valve. Cross valve type with T-Tap. Available in one size.

#### » PAEDIATRIC URINE COLLECTORS

Short-term urine collection in infants. Single use, disposable item. Suitable for both male and female infants. Special hypo-allergenic and non-irritant adhesive for better grip and easy removal from soft baby skin. Capacity: 100ml or 200ml. Available in one size only.

#### » URINE SAMPLE BOTTLE - SPECIMEN JAR

Produced from high-quality Polypropylene (PP) for the container and Polyethylene (PE) for the cap. Transparent container, tight-seal, leak-resistant cap. Non-graduated. Reusable and easy to clean. Available in one size only.

#### » URINE SPECIMEN CUP

Produced from high-quality Polypropylene (PP). Moulded graduation marks from 20 – 200ml. Reusable, easy to clean. Made from lightweight, durable plastic. Available in one size only.

#### » URISHEATH

Male external catheter. Made from Latex and packed in sterile pouches. Uses adhesive strap to secure the sleeve while avoiding constriction. Available in sizes: XL.

#### » VAGINAL SPECULUM – DISPOSABLE

Disposable, single-use item individually packed. Optimum 38 degrees opening angle. Superior grip and control. Reduced danger of skin trapping. Fast acting locking mechanism. Available in sizes: Small, Medium, Large.

## Medical Supplies

### Medical Disposable Wear

#### » SURGEON/THEATRE GOWNS – REINFORCED

- Single-use, disposable theatre gowns.
- Made from breathable spunbond polypropylene, non-woven.
- Critical zones including arm and chest areas are protected by fabric reinforcement.
- Excellent microbial barrier and excellent physical barrier to contaminants and fluids.
- Anti-static and fluid resistance/repellent.
- Generous cut for comfort.
- Velcro neck binding, double set of ties for extra security and fit.
- Book fold.
- Elasticated ribbed cuffs on wrists.
- Stitched seams for extra durability.
- Available in sizes: S, M, L, XL.

## Medical Supplies

### Medical Disposable Wear

#### » SURGEON/THEATRE GOWNS

Single-use, disposable. Made from breathable, soft spunlace fabric ideal for light to moderate blood exposure. Anti-static and fluid resistance/repellent. Generous cut, 2 ties, elasticated ribbed cuffs, and stitched seams. Available in sizes: S, M, L, XL, XXL.

#### » SURGEON THEATRE CAPS

Single-use, disposable theatre caps. Made from breathable spunbond polypropylene, non-woven. Dual head ties for optimum fit. Stitched seams for extra durability. Available in one size only.

#### » FACE MASKS

Disposable face masks. Does not contain glass fibres. Hypoallergenic, Easy breathing and speaking. Adjustable nose piece. High filtration capacity. Comfortable, easy-fit design. Available in 2PLY with Loops, 3-PLY with Loops, 3-PLY with Ties.

#### » BEARD COVERS

Single-use, disposable beard cover. Made from spunbond polypropylene, non-woven. Elastic edge and headband loop for optimal fit and comfort. Provides complete cover and secures all facial hair. Available in one size only.

#### » VISITORS COATS

Single-use, disposable, made from breathable spunbond polypropylene, non-woven. Excellent microbial barrier. Anti-static and fluid resistance/repellent. Single collar with buttons and elastic cuffs. Stitched seams for extra durability. Available in sizes: M, L, XL, XXL.

#### » LAB COATS

Single-use, disposable, made from breathable spunbond polypropylene, non-woven. Excellent microbial barrier. Anti-static and fluid resistance/repellent. Single collar with buttons and elastic cuffs. Stitched seams for extra durability. Available in sizes: M, L, XL, XXL.

#### » SHARPS BINS

- SABS Approved Waste Containers with medical lock lid.
- PP Flexi performance.
- Unaffected by moderate variation in temperature.
- Leak proof and puncture resistant.
- Intermediate closure system on the lid.
- Needle removal notches on the lid.
- Convenient carry handle.
- Available in sizes: 1L, 2.5L, 5L, 10L, 20L.

#### » RISK HEALTHCARE LINERS

- Disposable bags made from linear low density polyethylene LLDPE.
- Suitable for use alone or with waste containers as a liner.
- Bags have a durable reinforced gusseted bottom seal.
- Available in one size only.

#### » RISK HEALTHCARE BOXES

- Disposable cardboard medical waste container with Lid.
- Easy to assemble, flat packs store conveniently.
- Lab lid on top, use box in conjunction with a Biohazard Liner and Tape.
- Once the box is full, the lid is closed, sealed and ready for removal.
- Available in sizes: 50L and 142L.

#### » BIOHAZARD TAPE

- Ideal for marking and/or sealing all medical waste containers, disposable boxes, and other bio hazardous items.
- Available in one size only: 50m Roll.

## Medical Supplies

### Braces & Supports

#### » CERVICAL COLLAR – SOFT

*Ideal for Immobilising and reducing pressure. Made from thick, soft foam. Designed for a contoured, comfortable fit. C-shape with a secure Velcro closure. Covered with breathable, knitted stockinette material. Available in sizes: S, M, L.*

#### » ANKLE SUPPORT

*New and innovative design with a strong tensile force and elasticity in longitudinal and latitudinal directions. Extra length for added protection. Easy to wear and suitable for most sports. Available in sizes: S, M, L, XL.*

#### » WRIST SUPPORT

*New and innovative design with a strong tensile force and elasticity in longitudinal and latitudinal directions. Extra length for added protection. Easy to wear and suitable for most sports. Available in sizes: S, M, L.*

#### » COLLAR & CUFF

*4m collar and cuff sling for support. Manufactured from soft foam covered by a sleeve of knitted stockinette for patient comfort. Versatile and economical design that can be adapted into a variety of slings and braces. Available in one size only.*

#### » ELBOW SUPPORT

*Unique and innovative design with a strong tensile force and elasticity in longitudinal and latitudinal directions. Extra length for added protection. Easy to wear and suitable for most sports. Available in sizes: S, M, L.*

#### » KNEE SUPPORT

*Unique and innovative design with a strong tensile force and elasticity in longitudinal and latitudinal directions. Extra length for added protection. Easy to wear and suitable for most sports. Available in sizes: S, M, L, XL.*

#### » SPRAGUE RAPPAPORT STETHOSCOPE

Chrome plated chest piece with large and small diaphragm. Binaurals, chrome plated, with plastic medium-size ear tips. Latex-free heavy wall tubing with metal clip. Available in one size only.

#### » DUAL HEAD STETHOSCOPE

Dual head chest piece, diaphragm and bell-type. Non-chill chest piece with convertible axis. Latex-free PVC Y-tubing. Thin, streamlined binaural head frame. Available in one size only.

#### » SINGLE HEAD STETHOSCOPE

Single head chest piece diaphragm. Lightweight Aluminium non-chill chest piece construction. Latex-free PVC Y-tubing. Thin, streamlined binaural head frame. Available in one size only.

#### » ANEROID SPHYGMO WITH STETHOSCOPE

Mercury non-stop pin manometer. ENI060 Compliant. 2-Tube adult size bladder. Air-release valve with spring. 300mm Hg gauge. For use on either arm 30-45cm. In pouch with stethoscope. Available in one size only.

#### » ANEROID SPHYGMO WITHOUT STETHOSCOPE

Mercury non-stop pin manometer. ENI060 Compliant. 2-Tube adult size bladder. Air-release valve with spring. 300mm Hg gauge. For use on either arm 30-45cm. In pouch – no stethoscope. Available in one size only.

#### » DIGITAL BLOOD PRESSURE MONITOR – WRIST

Fully Automatic. Large LCD screen displays systolic/diastolic/pulse/clock. Stores up to 60 measurements in memory. Operates with 2 X AAA batteries. For use on either wrist 13-19cm. Available in one size only.

#### » MERCURIAL SPHYGMOMANOMETER – DESK

Inflatable cuff and mercury manometer. For use on either arm 30-45cm. Does not include Stethoscope. Set up within a sturdy closable metal box. Available in one size only.

#### » DIGITAL THERMOMETER

Accurate for measuring orally, rectally or underarm. Range of 32.0°C – 42.0°C on clear LCD display with memory storage. Takes 1 X 1.55V DC battery with average life = 200 hours. Available in one size only.

## Medical Supplies

### Medical Devices

#### » INFRARED EAR THERMOMETER | ET-100A

Range of 34.0°C–44.0°C on clear LCD display with memory storage. Takes 2 X AAA batteries. Average battery life = 4,000 temperature takes. Includes handy zipped storage pouch. Available in one size only.

#### » INFRARED EAR THERMOMETER | ET-100B

Range of 34.0°C–44.0°C on clear LCD display with memory storage. Takes 1 X 3V lithium battery. Average battery life = 2,500 temperature takes. Includes handy zipped storage pouch. Available in one size only.

#### » MANUAL BATHROOM SCALE

Designed for accurate weight readings. Easy to read dial display. Non-slip surface for safe use. Durable steel frame. Zero adjusting knob. Available in one size only.

#### » DIGITAL BATHROOM SCALE

Precise 0.1kg increment with multiple load-cell technology. Easy-to-read LCD Digital Display. High strength tempered safety glass platform with chrome accents. Available in one size only.

#### » NEBULIZER

Aerosol medication delivery with clinical accuracy. Built-in carry handle and storage compartments. Quiet powerful piston pump. Oil-free high-efficiency valve. With compressor, nebulizer, air tube, angled mouthpiece, 5 air filters. Available in one size only.

#### » NEBULIZER MASK

Compatible with most standard nebulizer. Reusable mask, must be hand washed. Soft anatomical form. Elongated shape for more comfortable fit. Elastic strap and adjustable nose clip. Available in sizes: Child, Adult.

#### » GUEDEL AIRWAY

Oropharyngeal airway for maintaining patient airway. Individually packaged, single use, sterile. Integrated Bite Block is colour coded for easy size ID. Smooth beveled tip for easy insertion. Available in sizes: 000, 00, 0, 1, 2, 3, 4, 5.

#### » OXYGEN MASK

2m Oxygen Tube. Latex-free. Soft anatomical form. Elongated shape for more comfortable fit. Elastic strap and adjustable nose clip. Available in sizes: Child, Adult.

#### » OXYGEN MASK WITH RE-BREATHING BAG

2m Oxygen Tube. Integrated re-breathing bag. Latex-free. Soft anatomical form. Elongated shape for more comfortable fit. Elastic strap and adjustable nose clip. Available in sizes: Child, Adult.

## Mobility Products Wheelchairs

### » ELECTRIC WHEELCHAIR – DETACH & FLIP

- Powder coating steel frame.
- Seat width 46cm.
- Total weight capacity 110Kg.
- Double cross bar.
- Flip-up PU armrest.
- Detachable footrest.
- Solid rubber foam 20cm front castors.
- Solid rubber foam 30cm rear mag drive wheel.
- Fabric seat and upholstery.
- Drop-back handle.
- Foldable chair frame.
- 200W x 2 Electric motor.
- 28AH Battery.
- 20km Range on full charge.
- Speed 1-6km/h.
- Climbing ability 12 degrees.
- Nett weight 56.6kg and Gross weight 63.
- Available in one size only.

## Mobility Products

### Walking Aids

#### » **ROLLATOR 4-WHEELED**

- 4-Wheeled Steel Rollator.
- Square design with attached basket, seat and removable backrest.
- Handle-mounted, loop-lock brake system for rear wheels.
- Handles are height adjustable with self-threading knob.
- Lightweight construction improves control and maneuverability.
- Large, solid casters for indoor or outdoor use.
- Easy to set up and folds flat for convenient space-saving storage.
- Available in one size only.

## Mobility Products

### Walking Aids

#### » ROLLATOR 3-WHEELED

Triangle design: one forward wheel, two rear wheels. Attached basket with tray lid. Handle-mounted brake system for rear wheels. Handles are height adjustable with self-threading knob. Large, solid casters for indoor or outdoor use. Easy to set up and folds flat for convenient space-saving storage. Available in one size only.

#### » WALKER - 1 BUTTON

Single-button release for quick, one-hand folding. Cross brace is located near hand grips to allow for full stride. Sturdy construction ensures maximum strength. Soft comfortable hand grips. Fully height adjustable with self-threading knob. Easy to set up and folds flat for convenient space-saving storage. Available in one size only.

#### » WALKER WHEELED - 1 BUTTON

Two wheels located on forward legs. Cross brace is located near hand grips to allow for full stride. Sturdy construction for maximum strength. Soft comfortable hand grips. Fully height adjustable with self-threading knob. Compact, solid casters for indoor / outdoor use. Easy to set up and folds flat for convenient space-saving storage. Available in one size only.

#### » WALKER - 2 BUTTONS

Easy-to-use, 2-button push mechanism lets walker fold easily. Cross brace is located near hand grips to allow for full stride. Sturdy Aluminium construction ensures maximum strength. Soft comfortable hand grips. Fully height adjustable, self-threading knob. Easy to set up, folds flat for space-saving storage. Available with or without wheels. Available in one size only.

#### » WALKER - WITH SEAT

Easy-to-use, grip handles lets walker fold easily. Square design with attached seat and backrest. Sturdy construction ensures maximum strength. Soft comfortable hand grips. Fully height adjustable with self-threading knob. Easy to set up and folds flat for convenient space-saving storage. Available in one size only.

#### » WALKER WHEELED - WITH SEAT

Square design with attached seat and backrest. Sturdy construction ensures maximum strength. Soft comfortable hand grips. Two wheels located on forward legs. Compact, solid casters for indoor or outdoor use. Easy to set up and folds flat for convenient space-saving storage. Available in one size only.

### » ADULT ELBOW CRUTCHES

Fully adjustable with push pin clips. Lightweight construction. Contoured arm cuffs. Ergonomical hand grips. Large, non-slip rubber tips. Maximum user weight: 150kg. Available in one size only.

### » PAEDIATRIC ELBOW CRUTCHES

Fully adjustable with push pin clips. Lightweight construction. Contoured arm cuffs. Ergonomical hand grips. Large, non-slip rubber tips. Maximum user weight: 100kg. Available in one size only.

### » WOODEN UNDERARM CRUTCHES

Semi adjustable, lightweight wood construction. Tough and durable. Ergonomical hand and underarm grips. Large, non-slip rubber tips. Maximum user weight: 150kg. Available in sizes: S, M, L.

### » STEEL UNDERARM CRUTCHES

Semi adjustable, high quality steel construction. Tough and durable. Ergonomical hand and underarm grips. Large, non-slip rubber tips. Maximum user weight: 150kg. Available in sizes: S, M, L.

### » WALKING STICKS – ASSORTED

Height adjustable with self-threading knob: 59cm – 94cm. Total weight capacity 100Kg. Aluminium frame, wooden handle. Various styles to choose from. Available in one size only.

### » FOLDABLE WALKING STICKS

High-tensile elastic for secure joining. Total weight capacity 100Kg. Aluminium frame, wooden handle. Adjustable height: 59cm – 94cm. 3 and 4 folding points types to choose from. Available in one size only.

### » WALKING STICK - WITH SEAT

Attached foldable seat. Aluminium frame, rubber tipped feet. Total weight capacity 100Kg. Stick total weight 0.84 Kg. Seat height 50.8cm. Stick height (floor to top of handle) 86cm. Available in one size only.

### » WHITE CANE FOR THE BLIND

Standard size White and Red walking cane with wrist strap, non-adjustable. 35.5cm Folded, extends to 120cm. Reflective red for night safety. Bottom grip avoids slippage. Available in one size only.

## Mobility Products

### Bathroom Assist Devices

#### » COMMODE CHAIR

- Fully foldable commode chair that can be used in any area.
- Sturdy steel chrome frame, plastic seat.
- Height adjustable with self-threading knob.
- Large foam rubber easy grip handles.
- Removable bowl for easy cleaning.
- Lid for added hygiene.
- Rubber-tipped legs for extra stability on slippery surfaces.
- Available in one size only.

**Dimensions:**

Depth: 48cm

Height: 78-88cm

Seat size: 45 X 43cm

Overall measurement: 50cm X 21cm X 76cm

Nett weight: 6kg

Gross weight: 7kg

### » COMMODE CHAIR - WITH WHEELS

Fully foldable sturdy Aluminium frame, plastic seat. Height adjustable with self-threading knobs. Large foam rubber easy-grip handles. Removable bowl for easy cleaning. Lid for added hygiene. Solid castors with rear-wheel lock. Available in one size only.

### » RAISED TOILET SEAT

Sturdy, wide, contoured plastic seat elevates sitting position. Heavy duty screw mechanism locks the device for a safe and secure fit. No tools needed for install and fits most toilet bowls. Eliminates the need for toilet safety rails. Total weight capacity 125Kg. Available in one size only

### » RAISED TOILET SEAT - WITH LID

Attached Lid for extra hygiene. Sturdy, wide, contoured plastic seat elevates sitting position. Heavy duty screw mechanism locks the device for a safe and secure fit. No tools needed for install and fits most toilet bowls. Eliminates the need for toilet safety rails. Total weight capacity 125Kg. Available in one size only.

### » RAISED TOILET SEAT - WITH HANDLES

Built-in handles with soft rubber grip for added stability. Sturdy, wide, contoured plastic seat elevates sitting position. Heavy duty screw mechanism locks the device for a safe and secure fit. No tools needed for install and fits most toilet bowls. Eliminates the need for toilet safety rails. Total weight capacity 125Kg. Available in one size only.

### » BATH BENCH

Removable bench that fits over the bath. Sturdy Aluminium frame, plastic seat. Adjustable width. Drainage holes reduce slipping. Dimensions: Depth 23cm, Height 18cm, Seat width 41-46cm. Overall measurement: 74cm X 28cm X 41cm. Nett weight: 1.8kg, Gross weight: 10.3kg. Available in one size only.

### » BATH BENCH - WITH BACKREST

Removable bench that fits over the bath. Sturdy Steel frame, plastic seat. Adjustable width. Drainage holes reduce slipping. Dimensions: Depth 36cm, Height 41cm, Seat width 84-130cm, Seat height 32cm. Overall measurement: 72cm X 42cm X 27cm. Nett weight: 3.6kg, Gross weight: 8kg. Available in one size only.

## Mobility Products

### Bathroom Assist Devices

#### » BATH CHAIR

Removable chair that fits over the bath. Sturdy Steel frame, plastic seat. Large easy grip handles. Swivel function, height adjustable. Drainage holes reduce slipping. Dimensions: Depth 50cm, Height 52cm, Seat width 51cm, Seat height 37cm. Overall measurement: 77cm X 56cm X 38.5cm. Nett weight: 8.8kg, Gross weight: 10.6kg. Available in one size only.

#### » SHOWER BENCH

Foldable bench. Height adjustable sturdy Aluminium frame, plastic seat. Easy grip handles built into seat. Drainage holes, rubber-tipped legs. Dimensions: Depth 43cm, Height 47-50.5cm, Seat width 50cm. Overall measurement: 50cm X 10cm X 39cm. Nett weight: 2.4kg, Gross weight: 2.7kg. Available in one size only.

#### » SHOWER CHAIR – OPEN SEAT

Fixed chair with sturdy Aluminium frame, plastic seat. Height adjustable. Open seat, rubber-tipped legs. Dimensions: Depth 51cm, Height 73-83cm, Seat width 41cm. Overall measurement: 53cm X 20cm X 25cm. Nett weight: 6.6kg, Gross weight: 7.6kg. Available in one size only.

#### » SHOWER BENCH – WALL MOUNTED

Wall-mountable bench ideally suited for a shower area. Sturdy Steel frame, plastic seat. 6 Wall brackets for secure mounting. 2 support legs for extra support with rubber tips to reduce slipping. Dimensions: Depth 45cm, Height 50-52cm, Seat width 41cm. Overall measurement: 59cm X 22cm X 51cm. Nett weight: 9.8kg, Gross weight: 10.5kg. Available in one size only.

#### » SHOWER CHAIR

Fixed chair with sturdy Steel frame, plastic seat. Swivel function for easy transfer. Height adjustable. Large easy grip handles. Drainage holes, rubber-tipped legs. Dimensions: Depth 41cm, Height 76-86cm, Seat width 51cm. Overall measurement: 70cm X 56cm X 41.5cm. Nett weight: 8.5kg, Gross weight: 10.6kg. Available in one size only.

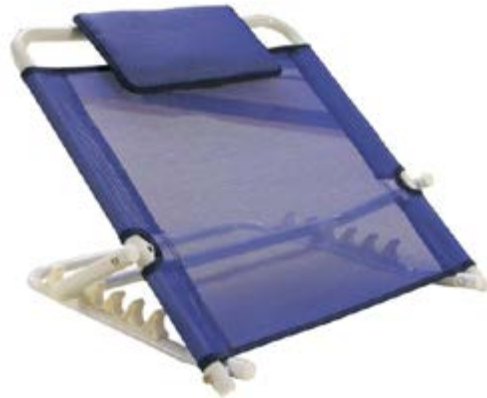

#### » SHOWER SEAT

Bamboo Plate Seat bench with sturdy detachable Aluminium frame. Height adjustable. Drainage holes, angled legs with suction-cup tips. Available in one size only.

## » BACK RESTS

- Ideal and versatile back rest for greater comfort in bed.
- Multiple fixed back positions provide support.
- 5 Different angle adjustments available.
- Covered with an easy to clean, breathable mesh fabric.
- Also includes a removable padded head cushion.
- Lightweight, sturdy steel frame.
- Total weight capacity 100Kg.
- Available in one size only.

## » OVERBED TABLES

- Wooden grain laminated top for easy cleaning.
- Fully height-adjustable and tilt-adjustable.
- Swivel castors for easy moving.
- Powder coated steel base provides security and stability.
- Suitable for wheelchair users.
- Dismantles quickly for easy, compact storage.
- Available in one size only.

## » WHEELCHAIR TRAY

- Made from sturdy, moulded plastic.
- Easy locking mechanism securely fastens to a wheelchair's armrest bars.
- Height adjustable for optimal comfort.
- Available in one size only.

# First Aid Kits Regulation Kits

## REGULATION 3 KIT

*This is the standard Government Regulation First Aid Kit.*
